

# CBC Transfer Port Caps With and Without Flanges and With and Without Nipples

Pictured above is a 20 mil. vinyl, external transfer port cap with a flange and with nipples.

Pictured above is a 20 mil. vinyl, internal transfer port cap with a flange and without nipples.

The photo sequence above shows a 18" diameter transfer port cap (flanged) with nipples being installed on a semi-rigid, germ-free isolator transfer port using a CBC Patent Clamp.\*

CBC Transfer Port Caps are available in the following standard diameters: 8", 12", 18" and 24"; and the following depths:

- 2" deep (with or w/o nipples and with or w/o flange)
- 7 1/2" deep (with or w/o nipples and with or w/o flange)
- 12" deep (with or w/o nipples and with or w/o flange)
- Custom sizes (with or w/o nipples and with or w/o flange)

\* CBC Patent-Clamp with neoprene-gooved band and the neoprene stoppers are sold separately.

For more information about CBC transfer port caps or other accessories used on germ-free, flexible film or semi-rigid isolator systems, call +49 7681 4979 395 or e-mail: [av@cbclean.com](mailto:av@cbclean.com)
