

# Flexible Film, Breeder Isolator System to Breed Your Own Colony of Germ-Free Rodents

*Pictured above is a germ-free, flexible film 50-Cage Breeder isolator that can be either positive pressure or negative pressure (96"L x 36"D x 45"W).*

## 32- or 50-Cage Germ-Free Breeder Isolator without Polypropylene Holding Box

### Isolators features include:

- 1 1/2" steel powder coated single shelf frame to prevent bending or warping. **Frame construction allows isolator to be used as either positive pressure or negative pressure.**
- Two-way locking wheels.
- Storage shelves.
- Blower and manifold system.
- Durable 20 mil urethane isolator.
- 20 mil urethane floor mat protector for inside the isolator.
- 5" x 8" and 5" x 4" round HEPA filters (Option for cylinder filters).
- (2) pair of 12" oval glove sleeves.
- (2) pair of Nitrile hand gloves with glove ring kit for attaching gloves to isolator (other types available).
- 18" stainless steel transfer port.
- Port to isolator neoprene band and clamp for sealing isolator to transfer port.
- (2) 1" neoprene stoppers (other types available).
- (1) internal rack (32 or 50 cages)
- (1) outside transfer port cap.
- (1) inside transfer port cap.
- (1) patent clamp for attaching outside pot cap to transfer port.
- Isolator pressure gauge.
