

# CBC's Quad, Flexible Film Isolator Starter Lab - (4) 30" x 24" x 24" Isolators

Item #50302424124

*Pictured above is a positive pressure, germ-free, flexible film quad isolator starter lab showing 4 independent isolators. Offers improved traceability and quality control over jury-rigged systems using parts from different manufacturers and suppliers.*

**Conduct 4 Different Experiments at One Time With CBC's Flexible Film, Quad Isolator System!**

**Maximize Use of Valuable Laboratory Space.**

***CBC's Quad Isolator System is (4) 30" x 24" x 24" germ-free, gnotobiotic isolators in one footprint! With all hardware necessary for assembly.***

Each isolator **runs independently** from the other isolators so you can have four different experiments/tests going on at one time. This system is also available as a single layer (two isolators) and as a negative pressure system. These isolators are constructed with 20 mil. vinyl and incorporate CBC's durable, lap-seam sealing process. Includes internal racks and all the accessories and equipment necessary for a complete working lab. *(see back for list of features and accessories available with CBC's Quad starter lab.)*

For more information about our CBC germ-free, flexible film, quad isolator starter lab or other equipment used for gnotobiotic, transgenic or microbiome research, call +49 7681 4979 395 or e-mail: [av@cbclean.com](mailto:av@cbclean.com)
